

ONLINE TRAINING

BASIC FIRE SAFETY AWARENESS

Courses Information sheet for
Basic Fire Safety Awareness

IFE (The Institute of Fire Engineers) and RoSPA Approved

Duration: approximately 60 minutes

(Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions).

Current legislation, The Regulatory Reform (Fire Safety) Order 2005, applies to all workplaces regardless of the number of employees and requires employers to provide adequate training in fire awareness for all members of their staff.

Our online fire safety training courses are aimed at all employees to assist them in identifying and reducing the risk that fire presents in the workplace.

This course will provide candidates with a general understanding of basic fire awareness including what should be done in the event of a fire, how to prevent a fire occurring and a basic introduction of the protocol of extinguishing a fire.

It is a cost effective way for employers to fulfil their legal obligation to provide their employees with the necessary understanding of fire awareness.

The course consists of 5 modules with questions at the end. You are given the chance to review all your answers at the end of each module before final submission and you will be given 3 attempts at each module to achieve a pass rate of 70% or higher.
