

## Health & Safety **Risk Assessment** Training

Open and on site Workshops

Duration 4.5 hours Delivered by qualified (NEBOSH L6 Diploma) Trainer (City & Guilds)

### Training Workshop Aims

To gain awareness and knowledge in order to help us to,

- Sufficiently contribute to a great health and safety culture
- Confidently contribute to the process of risk assessment
- Attain Pass/Merit/Distinction certification

### Objectives

To have a knowledge of;

- Health and safety legislation and background
- Our responsibilities under legislation
- The process of risk assessment

To have answers to all of these questions;

- What is risk assessment?
- Why do we do risk assessment?
- When do we need to undertake a risk assessment?
- Where are we required to do risk assessments?
- How would we do a 'suitable and sufficient' risk assessment?
- How do I use 5 steps to risk assessment

To test what we have learned;

- Engage, contribute and complete exercises during the learning
- Complete a multiple choice measurement of the days learning.

### Learning by delivery of

Tutor information, group activity and discussion, visual aids, dvd, powerpoint and workbook

To include;

- When did it all start – brief health & safety history
- The enforcing authorities
- The health and safety at work etc. act 1974
- Moral, legal and financial consequences
- Near miss reporting
- The management of health and safety at work regulations 1999
- Risk perception
- Risk assessment – suitable and sufficient criteria
- Who's responsible
- When should we assess, what should we include
- Reasonably practicable
- The hierarchy of control
- Defining hazard
- Defining risk
- Define foreseeability
- 5 steps to risk assessment

### To take away

- Training workbook
- PowerPoint notes
- Certification (Attended, Passed, Merit or Distinction)
